Re: *Petition to Establish Generic Docket to Consider Amendments to
Interconnection Agreements Resulting from Changes of Law*
Docket No. 04-00381

Dear Chairman Jones:

BellSouth and CompSouth hereby submit a joint exhibit, which summarizes the results of the parties' agreed process for confirming the identity of "fiber-based collocators," as that term is defined in the *Triennial Review Remand Order* and FCC rules. The attached joint exhibit reflects the results of the parties' process in those wire centers in which BellSouth has identified fiber-based collocators for the purpose of satisfying the impairment tests in the *Triennial Review Remand Order*.

At this time, the parties do not have an active dispute concerning fiber-based collocators in the wire centers identified. The parties continue to disagree as to the numbers of business lines in the listed wire centers, which disagreement has been addressed in each party's respective post-hearing brief. As a result of the parties' differences concerning the numbers of business lines, the parties disagree as to the impairment status of five wire centers. The parties do not disagree as to the impairment status of ten wire centers.

Very truly yours,

Guy M. Hicks
